VOL. XVI. NO. 162. LIMA, OHIO SATURDAY, APRIL 21, 1900. PRICE THREE CENTS

GUNS

Of the Boers Were Temporarily Silenced by British.

Methuen's Forces do Service

In Driving a Detachment of English Soldiers From Annihilation---A Number of British Were Killed and Wounded.

Special by Associated Press.

Bloemfontein, April 21.—Generals Chermside and Randle came in contact with the Boers near Delvet's Dorp Friday noon. The fighting was principally done by artillery and continued until dark. Two Boer guns were temporarily silenced.

The British command the hills for miles around the Boers, who are reported to hold strong positions, but are probably retiring. The casualties of the British were slight. The firing was at long range. No British troops were killed.

At midday yesterday Gen. Methuen's field force at Swarezkopjeesfontein was ordered to return to Bosbof. The escort took up a position on a hill commanding the road, just in the nick of time, as a force of Boers numbering 2,000 with two guns and pompom, suddenly appeared in the vicinity and opened a very heavy fire. The British, however, reached the point of safety. The British had several casualties.

FIGHTING AT WEPENER.

Night Attack of the Boers Reported Repulsed by the British.

Aliwal North, April 21.—Captain Little of Brabant's horse, Lieutenant Holbeck and Dr. Milne, a correspondent, fell into the hands of the Boers. The prisoners were sent to Pretoria. Their native servants, who escaped from the Boer laager near Wepener, say that there were four guns disabled and that the Boers had lost 100 in killed alone. It is also ascertained that the Boers made a night attack on April 11, but were discovered while creeping along a deep ditch by Cape mounted rifles, with Maxims, who fired into them at a distance of 200 yards, with the result that the Boers lost five wagon loads of killed and wounded. A simultaneous attack in other quarters was repulsed by the British, who used their bayonets. The Boers still surround Wepener.

London, April 21.—General Chermside and General Rundle are moving over the sodden road. Rain was still falling when they went into camp Thursday afternoon 18 miles west of Dewet's Dorp. They hold the railway and the southern frontier of the Free State with 20 000 men. How many are going with the generals who will engage the Boers at Wepener is not mentioned. On Thursday the Boers still had Colonel Dalgety closely penned.

The government's reason for publishing Lord Roberts' Spion Kop dispatches was explained at Hull by Mr. Walter Hume Long, president of the board of agriculture, who said that the country was entitled to receive all the information the government could give. "The government is told," continued Mr. Long, "that, having published the dispatches, it is bound to deal immediately with the generals affected, but in following such a course the government might have to dismiss every general the moment he made a mistake. Had such a policy been pursued in the past, many most glorious deeds would not have been performed."

General White, if not required in South Africa, will go as governor of Gibraltar toward the end of May.

The Times publishes the following dispatch from Johannesburg, dated Thursday, April 19: "The investment of the British position on the east and south has been relaxed. A majority of the enemy are supposed to have left for the purpose of intercepting the relief column, leaving one gun and about 1,000 men on the west to prevent our co operation. Our casualties are about 150. No sound of the relief column has yet been heard."

Moving Freely.

Maseru, Basutoland, April 21.—The Boers continue to move freely around Wepener, going in all directions from which relief columns are expected. Desultory cannon fire and sniping have been going on all day, with scarcely any reply from Colonel Dalgety's force. The Caledon river rose considerable during the night. This made the Boers uneasy, as they fear separation. Some reinforcements have arrived for them, coming apparently from Thaba N'Chu or that direction. British casualties up to date are believed to be 25 killed and 110 wounded.

Under Water.

Bloemfontein, April 21.—There is already a 30-foot flood of the Caledon river, which is reported to be still rising. All the drifts on the Modder river are impassable. Traffic is temporarily interrupted southward, the water having washed the ballast from the line of the railway. The country about Bloemfontein is so deep in mud that the farmers' carts are unable to reach the town.

Located the Boers.

Elandslaagte, April 21.—The British patrol discovered another party of Boers on the British left, in the same position from which the enemy recently fired on the South African horse. In this instance, however, there was no firing. Native deserters confirm previous statements with respect to the fortifications and strength of the Boers along the Biggarsberg range.

Military Governor.

Bloemfontein, April 21.—Major General Prettyman has been appointed military governor of the whole territory which hitherto belonged to the Free State. This extension of British authority has become necessary to preserve law and order. The arrests of suspected Free Staters continues.

Guerrilla Warfare.

Ladysmith, April 21.—The Boers in Natal are already commencing a guerrilla warfare. Both the Transvaalers and the Free Staters are compelling the natives to bear arms. General Buller has ordered all the farmers between Ladysmith and the Drakensburg range to retire to Estcourt.

Object of the Boers.

Ladysmith, April 21.—There is good reason to believe that the Boer raids are intended to cover the enemy's withdrawal from Natal in order to help the Boers in opposing the advance of Lord Roberts.

SUICIDE

The Alleged Motive of a Woman Who Jumped From Brooklyn Bridge.

New York, April 21 — Miss Marie Diase, 32, of this city, jumped from the Brooklyn bridge without serious injuries. The woman is now in Hudson Street hospital. The physicians found that no bones were broken, but they say it is possible that she has sustained internal injuries. The woman stepped from a cab in motion about 50 feet from the bridge tower, on the New York end, and dropped to the water below. She was picked up by the crew of the tug Tacoma, which was moored near by. The fact that she had no money and had ordered herself to be driven to a place in Brooklyn where she is not known leads the police to believe that suicide was planned. It is said the woman is in straitened circumstances.

New Incorporations.

Columbus, O., April 21.—Ulica club, Cleveland, News Publishing company, Sebring, $10,000; Heil Brothers' company, Cleveland $10,000; Norwalk Gas and Electric company, Norwalk, $125,000; Presbyterian congregation in New Harrisburg; Guardian Savings Bank company, Akron, $100,000.

Hotel Deal.

Cincinnati, April 21. — A. G. Corre purchased the Gibson House, over which there has recently been much litigation. It will be remodeled. Mr. Corre remains as president also of the Grand Hotel company. Corre had the Gibson House many years ago.

Over a Dog.

Athens, O., April 21.—At a spelling school four miles west of Athens a man by the name of Young shot and fatally wounded Estcourt Pickett. The trouble originated over a dog.

DUN'S WEEKLY REVIEW.

Reduction in Steel, the Textile Industries, and Week's Failures.

New York, April 21.—R. G. Dun & Company's weekly review of trade says: Formal reduction of $5 per ton in prices of plates and bars and closing of mills by the American Steel and Wire company have filled the week with surprises. In the stock market and in the market for steel and iron products changes have begun, and the end of which can not well be foreseen.

The textile industries have large orders yet to be filled which keep many of the mills busy, but there are many others less fortunate. The staple woolen and worsted goods hold steadily. Wool has been inactive without change.

Business failures in the United States for the week number 161 as compared with 187 in this week a year ago; in the Dominion of Canada failures for the week number 19 as compared with 30 in this week a year ago.

Price of Armor Plate.

Washington, April 21.—As a result of a protracted struggle in the house, the provision of the naval appropriation bill to enable the secretary of the treasury to contract for armor for the battleships Maine, Ohio and Missouri, now awaiting their armor equipment, at $545 per ton, the price asked for Krupp armor, is out of the bill, as is the provision to repeal the $300 limitation placed upon the price of armor by the current law. The exact effect of the action of the house is disputed. It is contended by some that this empowers the secretary to contract for the armor without regard to cost. By others it is claimed that the provision will be ineffective unless the senate inserts the price.

Pacific Cable Substitute.

Washington, April 21. — The house committee on commerce substituted the Sherman bill for the construction of a Pacific cable in place of the bill recently passed by the senate. The Sherman bill had been previously reported to the house, but the action puts it in the form of a substitute to the senate measure. It differs from the senate bill in providing construction by private contract under government supervision, while the senate provides for government construction and operation.

"Healer's" Mail Seized.

Boston, April 21.—Twelve sacks of mail addressed to Francis Truth, the divine healer, who was arrested recently charged with fraud, have been impounded by the United States government under the usual "fraud order." Many of the thousands of letters contained in the 12 mailsacks carry money for "absent treatment." Truth's usual charge was $5 for absent treatment, so that necessarily the amount of money contained in the letters is very large.

A Russian View.

St. Petersburg, April 21.—In discussing American-Turkish affairs, the Novoe Vremya says: "The porte could easily avoid undesirable reprisals by asking for the friendly mediation of neighboring European states. In the present international controversy friendly intervention is possible upon the basis of The Hague convention, and such intervention would both serve the cause of peace and save Turkey from troublesome complications."

Village Burned.

Grand Forks, N. D., April 21.—The village of Edinburg, in the northern part of Walsh county, was practically destroyed by fire. Two women, Mrs Lindahl and Mrs B. J Orson, perished in the flames. Only the residence portion of the place is uninjured. Estimated loss $400,000.

Papal Reception.

Rome, April 21.—Twelve thousand pilgrims, among whom were 3,000 foreigners, attended the papal reception at St. Peter's cathedral. The pope, who was supported by 40 cardinals, looked wonderfully well. He pronounced the benediction in a clear voice.

Tennessee Republicans Have Two Tickets

For the State Campaign

One Faction Bolted During the Convention.

Two Candidates for Governor Nominated by Two Sets of Delegates to the National Convention Were Chosen.

Special by Associated Press.

Nashville, April 21.—Tennessee will have two Republican tickets in the field in the coming state campaign. Likewise two sets of delegates will go to the national convention at Philadelphia. As expected, the state convention split here, the Evans contingent walking out and holding a convention of their own. W. F. Poston of Crockett county is its gubernatorial selection, while John E McCall is at the head of the state ticket named by the convention over which Congressman Brownlow presided. Pension Commissioner Henry Clay Evans will lead one delegation to the national convention, while the other will be directed from the background by Congressman and National Committeeman Walter P. Brownlow. Both delegations are instructed for McKinley.

The situation is the outcome of a bitter factional fight that has waged in the state for some time. The expected storm broke in the state convention soon after it met, and the Evans men bolted, about 10 of them having a convention of their own. The split came when the "uncontested" delegates refused to substitute the minority for the majority report of the committee on credentials. That committee presented a report seating Brownlow delegates from 16 contested counties, and both delegations from 13 counties. The minority recommended the seating of Evans delegates in each instance.

The Evans faction is bitter in denunciation of the Brownlow cohorts, Mr Evans himself showing considerable feeling. As an instance, he sent the following message to General H. V. Boynton at Washington: "Situation most embarrassing and humiliating. No box-stuffing and perjury ever equalled what we have here. Decency thoroughly disgusted."

Taylor to Return.

Frankfort, Ky., April 21.—It is reported that Governor Taylor will soon leave Washington to join his family at Louisville. There is said to have been much communication by wire between here and Washington. Friends of Governor Taylor say he is ready to meet any charge that may have been brought against him, but they do not want him incarcerated without bail, which they say he can give in any reasonable amount. The clerk of the court insists there is no record on file of any Taylor indictment, and all the other indictments returned are on file in the clerk's office. The circuit judge can hold an indictment until the bench warrant has been served, and such is believed to be the case in this instance. Current reports are generally credited that the warrant even has been issued ready for service on the return of the governor.

Fourth Ohio Republicans.

Lima, O., April 21.—The Republicans of the Fourth congressional district met in convention here. Edwin Wright, ex-mayor of Greenville, was nominated for congress. Colonel W. K. Boone of this city and Hon. W. D. Davies of Sidney were selected as delegates to the national convention, and Emil Moser of Wapakoneta selected as elector.

In the Senate.

Washington, April 21. — The senate had under consideration during the greater part of the session the conference report on the Hawaiian civil government measure. Mr. Cullom made an extended explanation of the changes in the bill. The report was the subject of sharp criticism. Alaskan civil code bill was considered for a brief time, Mr. Bate (Tenn.) delivering a speech in opposition to the pending Hansbrough amendment relating to the rights of alien miners. Mr. Foraker (O.) pronounced a eulogy on the late Lorenzo Danford, a representative from Ohio, and the senate adopted resolutions expressive of its sorrow.

Bound and Gagged.

Bryan, O., April 21.—A robbery took place at Holstein farm, one mile west of Kunkle, in which Mrs. Holstein was bound and gagged by two men with blackened faces. The house was ransacked. The woman is in a serious condition.

CHARGED WITH ARSON.

Four Persons Indicted by the Cincinnati Grand Jury.

Cincinnati, April 21.—The grand jury indicted W. W. Thomas, proprietor of the People's Tea, Spice and Baking Powder company, "for burning property which was insured," and Harry Waters, principal of the Waters business college; Mary Stone, confidential bookkeeper for Thomas and his brother, Isaiah Thomas, as accessories to the burning of Thomas' wholesale grocery house last November. All were released on bonds. The insurance companies resisted the payment of $60,000 and offered $5,000 reward. The insurance companies allege that they paid former losses of Thomas under protest and this time employed detectives and attorneys for investigation.

Commercial Congress.

Houston, Tex., April 21.—The eleventh annual session of the Transmississippi Commercial congress adjourned to meet next year in Cripple Creek, Colo. The important business was the adoption of a plan for the organization of the congress on a permanent basis, the indorsement of the St. Louis exposition and the adoption of a resolution calling for the immediate passage of one of the Nicaraguan canal bills now pending before the national congress.

Queen's Visits.

Dublin, April 21. — Queen Victoria, after visiting the zoological garden, where she seemed much interested, paid a visit with the princesses to the convent of St. Mary of Loretto, where she was presented with a bouquet in the shape of an Irish harp. The return to the vice regal lodge was made amid many scenes of enthusiasm.

Telegraphers Encouraged.

Atlanta, April 21. — No appreciable change has taken place in the Southern railway strike situation. Reports to the strikers' headquarters from every direction show confidence and encouragement on the part of the telegraphers. Conditions appear to be normal with the Southern railway.

Fire In Her Hold.

New Orleans, April 21.—The steamer Excelsior, which sailed for New York, returned to port with fire in her hold. This is the third time the Excelsior has been on fire within the last fortnight. Her officers expect to extinguish the fire in time to sail again for New York in a few hours.

PLAGUE

Has Broken Out in Virulent Form in Manila.

Many Fatal Cases Reported.

In One Instance Fourteen Out of Fifteen Patients Died---The Infected Buildings Have Been Quarantined and Will be Burned.

Special by Associated Press.

Manila, April 21.—The sudden deaths of Filipinos and Chinamen in Quiapo market have led to an investigation showing that fifteen cases of plague, fourteen of which were fatal, have occurred within a week. The market is located in the center of the city. In black, rotten wooden buildings, keepers of stalls live with their families huddled together in great filth. Some victims were stricken and died within an hour after. All the market people had gathered together today, and the board of health threw a guard around the buildings and will keep the inmates quarantined there for a fortnight. They will then burn the market. The plague elsewhere has been suppressed. Col. Hardin and Major Case, with a battalion of the 29th infantry, sailed for the islands of Marinbuduc and Malbeto. Dr. Burges, a prominent native of Marinbuque and a supporter of the Americans, accompanies the expedition to try to convince the inhabitants the wisdom of surrender.

ADJUSTED

Will be the Little Dispute Between Uncle Sam and the Sultan.

Washington, April 21.—Ali Ferrouh Bey, the Turkish minister, said that he probably would hear from his government in a short time concerning the American claims. He insists that an amicable settlement can be arranged, and repeats his statement already published that in view of the high esteem in which he was held by the sultan, and the fact of his acting in a diplomatic capacity, Minister Straus was not justified in making the assertion that the sultan had broken his promise in regard to the settlement of the claims.

It is intimated by diplomats familiar with the situation that the sultan of Turkey does not care particularly whether an ultimatum is issued by the United States because of the neglect to pay the claim of $100,000 which the United States is now demanding, after years of promises, as he has means of reprisal at hand. There are in the Philippines more than 3,500,000 Mohammedans, in the Sulu islands, whose devotion to their calipha is fanatic. The sultan would have but to lift his finger and these Malays and Moros would join forces with the Tagalogs. The war in Luzon would be extended in every direction throughout the islands, and the American forces would necessarily have to be increased.

Demand For Independence.

Havana, April 21. — The principal topic of conversation in Havana is the letter of General Ruis Rivera, secretary of agriculture, urging a union of political parties, and an unanimous demand for absolute independence by the end of 1901. Many Cubans who are opposed to the Democratic Union party are greatly gratified by the course General Rivera has taken. At the same time they express wonder that he should have ventured upon such a step, and The Lucha predicts his enforced resignation.

People Against It.

Santo Domingo, April 21.—Congress has passed by a vote of 13 to 9 the government improvement contract. But the Belgian bondholders have reserved the right, through Signor Vicini, the Italian consul, who is a creditor to a large amount, to protest against the contract on the ground that they are thereby deprived of collecting a certain part of the duties granted some time ago against the amount due the bondholders. Public opinion is opposed to the contract.

Indian Relief Supplies.

Washington, April 21. — The vessel which has been secured for the conveyance to Bombay from New York of the relief supplies for the Indian plague and famine sufferers is the British steamship Quito. It was desired to secure the vessel under the American flag, but no available craft offered. The cargo will not be in charge of a naval officer on this trip, but the persons who collected the relief supplies will send an agent with the vessel.

Causes Little Comment.

Berlin, April 21.—The news regarding the friction between the United United States and Turkey has caused little comment in Berlin. The Tageblatt says, "We do not believe the European powers would apply the Monroe doctrine to Turkey. Nevertheless a large American naval demonstration in European waters would be a fact which continental powers could not regard without serious attention."

Reception to Gomez.

Santo Domingo, April 21.—General Maximo Gomez arrived here from Cuba and met with a brilliant official and public reception. He landed under a salute fired from the fort, was met by committees at the landing place, and the streets were decorated in his honor. The minister of war, Senor Brache, has resigned.

Colson Case Concluded.

Frankfort, Ky., April 21.—The defence in Colonel Colson's trial closed its case, and the commonwealth started at once to introduce testimony in rebuttal. The evidence of the defence tended to show that Scott had repeatedly made threats against Colson's life. The case is now ready for argument.

Explated His Crime.

Hawkinsville, Ga., April 21.—Homer Crawford, a negro, was hanged in the county jailyard here for the murder of Johnson Pate, colored. Both men were under the influence of whisky, when a quarrel arose.

Oratorical Contest.

Nashville, April 21.—Representatives of the University of North Carolina won the oratorical contest from Vanderbilt in the university chapel here. The question was: "Resolved, That the United States should not maintain permanent possession of the Philippine Islands." North Carolina had the negative side. Governor McMillin presided.

Elected Librarian.

Cincinnati, April 21. — N. D. C. Hodges, librarian of the scientific library at Harvard university, was elected librarian of the public library of Cincinnati to succeed Librarian A. W. Whelpley, recently deceased.

Michael Indicted.

Lima, O., April 21.—N. L. Michael, ex-vice president of the American National bank, which was robbed two years ago of $19,000, was indicted by the grand jury for the robbery.

Pugilists Matched.

Detroit, April 21. — Curley Supples, the Buffalo lightweight, has been matched to meet Jack Abbott of Victoria at Omaha, May 5, in a 20-round contest at 135 pounds.

SNAP SHOTS.

Current News Nuggets Gathered From Far and Near.

Eight thousand miners have gone on strike near Santander, Spain.

Canned roast beef will be supplied to soldiers in the Philippines.

Riley Powell, a negro, was legally hanged for murder at Cairo, Ills.

The Prince of Wales, upon his return to England, was accorded an enthusiastic greeting.

Former Captain Dreyfus has gone to Cologne, where he has taken a villa for the season.

A young man thought to be P. A. Smith of Gettysburg, Pa., was killed in the Columbus yards.

David B. Hill says there will be harmony this year in the ranks of the New York Democracy.

At Muskegon, Mich., Emanuel Reformed church was burned. Two firemen were fatally injured by a falling wall.

Masked men at Tazewell, W. Va., dragged from jail John Peters, a negro who had assaulted a white girl, and shot him to death.

CASE OF REINCARNATION

Professor Flournoy's Experiments With a Swiss Woman.

MISS F.'S FORMER EXISTENCES.

Under Hypnotic Influence She Seems to Reveal Three—One In Mars, One In India Centuries Ago and One In France During the Great Revolution.

A short time ago the London correspondent of the New York Sun cabled some particulars of the strange case of apparent reincarnation reported by Professor Flournoy of Geneva. Those who remembered Rudyard Kipling's tale "The Finest Story In the World" will at once notice the strange similarity between the professor's case and the writer's imagination. A few years ago Blanche F., a young woman of Geneva, consulted the professor for some nervous trouble. He then discovered the peculiarities of her case and for three years made careful observations. He also called in some of his colleagues to assist in his experiments.

The result of their experiments was briefly this: When in a state of hypnotic trance, Miss F. seemed to have clear recollections of three distinct previous existences. The first was on an unknown world, which she describes and which, from her description, agreeing more or less as it does with scientific assumptions, is supposed to be the planet Mars. When she refers to this state of existence, Miss F. speaks a strange language, which never varies, and also writes in strange characters, which are always consistent. Her second existence was in India at a far distant epoch. When referring to this stage, Miss F. speaks pure Sanskrit and refers to events of which the historical accuracy has been proved. Her third state of existence would seem to have been in France at the time of the revolution.

Miss F. is of irreproachable character and works regularly in a business house. Professor Flournoy declares that he is convinced there is no trickery and owns, in company with his colleagues, that he is completely mystified. Obviously, of course, there is plenty of opportunity for chicanery in a pretended knowledge of affairs so recent and well known as the events of the French revolution. It is impossible to apply any test to the truthfulness of a description of life on the planet Mars, but there is no doubt of the purity of Miss F.'s Sanskrit.

A few days ago Professor Flournoy submitted this strange case to a committee of undoubted savants. The seance was held in the private house of a German professor at Charlottenburg. Among the guests were a number of university professors. There were also present three professors of the Oriental seminary—Professors Bacha, Hsuek-Shou and Hassan Djelaieddin—and two newspaper men. Professor Flournoy gave the assembled guests a brief resume of his observations and then proceeded to put Miss F. into a hypnotic sleep.

Upon being commanded to speak Miss F. uttered what one of the newspaper men describes as "a strange sounding idiom with innumerable a's." Two of the Indian philologists made a movement of surprise.

"Sanskrit undoubtedly!" said one.

"She speaks it better than I can," remarked the other. "It is wonderfully pure and classical." He then proceeded to interpret: "She is in a temple—huge pillars all round. She is lying on steps going down to the water. The water is yellow, the steps are white and rose colored—she smites her head on the stones, weeping—she is afraid of the monkeys—hundreds of them—she worships them because they are holy—she makes a vow to"—

The sleeper stopped short, the blood rose to her face and her lips quivered. Suddenly she started singing softly, "Madame Veto avait promis." The Carmagnole!

The face of the medium now assumed such a wild expression in contrast to her soft, monotonous voice that some of the guests became alarmed. She suddenly stopped again.

Professor Flournoy said that he had only once succeeded in transmitting the influence from Miss F. to another person by contact of hands and that it might be possible for a hypnotic medium to follow the working of her mind in this fashion. A young specialist in nervous diseases volunteered to make the experiment. Dr. Flournoy placed him exactly opposite Miss F., joined the palms of their hands and gently stroked the point of juncture. The blood disappeared from the young doctor's face, and his heart began to flutter. Then for five minutes all was silence. The following is a shorthand report made by one of the reporters of what the doctor said when commanded to speak. His voice was hoarse and without expression as he said:

"What a curious city—houses like pyramids—one on top of the other—like hills—all glass—no, not glass—glistening—don't know—what is that?—trees—animals—living—but they are fixed to the ground—what flowers, opening and closing themselves—curious glowing eyes inside—strange scent—oh, what is behind there?—a mountain, a volcano—but that is no fire—burning air—thunder—lightning—we fly—we are current—swept along—all is alive—but where?—but what?—in the glass pyramids—stuff like glass, though."

The young doctor's voice suddenly became a shriek, and the host sprang forward, demanding that the experiment should stop. Professor Flournoy obeyed and awoke the doctor and Miss F. simultaneously.

"Little Sticks Kindle the Fire."

The time for fires for warming is about gone and the little sticks can take a rest. Unfortunately, however, the cold months brought into the human system impurities of the blood, which generally show in the Spring, and which need treating with America's Greatest Spring Medicine, Hood's Sarsaparilla

It has the faculty of going directly to the seat of the trouble, removing it speedily. *It never disappoints.*

The Grip—"After the grip I was run down, appetite poor and health bad. Hood's Sarsaparilla purified my blood, restored my appetite, pains entirely gone. I am a surveyor." A. W. JUDSON, Sandusky, Ohio.

Scrofula Bunches—"My baby was weak and delicate after scarlet fever. Skin was transparent and blue. Scrofula bunches came on his neck. Three bottles of Hood's Sarsaparilla removed them completely and he is now strong." MRS. GEO. CLARK, 522 Chestnut Street, Lynn, Mass.

Catarrh—"I suffered twelve years with eczema. Tried different medicines and physicians with only temporary relief. Finally took Hood's Sarsaparilla and Hood's Pills patiently for six months and am entirely cured." D. J. MURR, U. S. Pension Office, Indianapolis, Ind.

Three Troubles—"I had rheumatism, weakness of the heart and stomach, with scrofula. Nothing helped me until I took Hood's Sarsaparilla; it relieved me in short time." MRS. R. P. WALLIS, Winnisquam, N.H.

Tired Feeling—"I had that tired, dull feeling, dyspepsia, headaches and sinking spells, but Hood's Sarsaparilla made me a new man. I never was better than now." JOHN MACK, Oskaloosa, Iowa.

Backache—"I was miserable and tired, had no appetite and felt sore all over. My back ached so that when I stooped I could hardly straighten up. First bottle Hood's Sarsaparilla helped and three bottles made me strong and well." J. J. EICHSANER, 928 Meldrum Ave., Detroit, Mich.

Rheumatism—"My husband has been greatly benefited by taking Hood's Sarsaparilla for rheumatism. I take it when weak and worn out as it is the best." MRS. M. LEDDY, 516 Waverly Av., Brooklyn, N.Y.

She Inherits Her Talents.

With the possible exception of Carmen Sylva, queen of Roumania, the most accomplished of European queens is the charming young Queen Amelie of Portugal. Queen Amelie, who inherits her literary talents from her father, the late Comte de Paris, author of a history of the American civil war and a history of the English labor party (besides many other works dealing with political and social questions of the day), has taken her degree of M. D. and is now the chief physician of her husband and children. The queen was married at Lisbon thirteen years ago to the then crown prince, Duke of Braganza, now King Carlos I.

How to Keep Warm.

People easily chilled, suffering from cold feet or hands should change their food. The system may be so out of order that no amount of proper food will build it up, but it will always bring relief. People who inhabit cold climate as the Esquimaux, live on fatty foods, because fat or oil produces heat. Nothing really supplies the system with this kind of nourishment as well as Cocoa or Chocolate. They contain a great deal of natural oil which does not become rancid, and is always palatable. Buy the best as the cheaper varieties contain large amounts of flour. Cleveland Cocoa is made under the pure food laws of Ohio, as also are Rose's Unsweetened Chocolate and Rose Sweet Chocolate.

Burglars in Peru.

When a burglar wants to break into a Peruvian house he takes a sponge and a bucket of water and moistens the walls, which are covered with only a thin coating of mud, and easily dissolves upon the application of moisture.

Millions Given Away.

It is certainly gratifying to the public to know of one concern which is not afraid to be generous. The proprietors of Dr. King's New Discovery for Consumption, Coughs and Colds, have given away over ten million trial bottles and have the satisfaction of knowing it has cured thousands of hopeless cases. Asthma, Bronchitis, La Grippe and all Throat, Chest and Lung diseases are surely cured by it. Call on H. F. Vortkamp, corner Main and North streets, druggist, and get a free trial bottle. Regular size 50c and $1.00. Every bottle guaranteed.

Ocean Steamship Facts.

Since their introduction the speed of ocean steamers has increased from 8½ to 22½ knots an hour, and their passenger capacity twenty fold. The engine power is forty times as great, while the rate of coal consumption per horse power per hour is only one-third what it was in 1840.

Dr. Bell's Pine-Tar-Honey cures coughs for young and old. Most cough medicines simply help you cough. Dr. Bell's Pine-Tar Honey helps you not to cough. See the difference? Would you like to try it? It is particularly valuable for those who cannot stand the strain of coughing. Ask your druggist for it. Take no substitute. There is nothing as good as Dr. Bell's Pine-Tar-Honey. Good druggists sell it. T. N. Cunningham, 136 north Main street.

FROM BOER POINT OF VIEW.

Confidence of Ultimate Success Expressed In a Burgher's Letter.

A British outlander, now a naturalized Transvaal burgher, gives in a letter dated Johannesburg, Feb. 20, and written to a friend in New York an interesting account of the situation as it appeared from the Boer point of view at that date, says the New York Sun. He says:

"Your letter dated Dec. 29 to hand a few days ago. I have just returned from the front (Tugela) escorting prisoners taken at Tugela last week, and as the mail per German steamer closes tomorrow I take the chance of writing you. So far the burgher forces have virtually had their own way, and, though General French with 2,000 cavalry has succeeded in getting into Kimberley, all their commissariat train, numbering over 180 wagons and about 4,000 oxen, intended for the relief of Kimberley, has fallen into our hands. On the Tugela General Botha has three separate times driven General Buller's forces back, with heavy losses on each occasion, and we believe the relief of Ladysmith is almost impossible. That the war will probably last six months longer is likely enough, but from what I have seen and know we will not tire in the struggle, and every day longer in the field makes us more competent to inflict defeat on the enemy.

"As regards the future of the republic it seems to possess every possibility of success. It is well that the war did occur. Our position will be all the more secure for the future, and the intolerable interference of the colonial office and the British government in the internal affairs of this state will be for all time impossible. If the war brings us nothing else, it will not have been waged in vain. But I am sure that it will mean more than this and that in the days to come our country will be looked upon by the nations with that esteem and respect which is hers by right of her prompt and courageous action. One very heartening sign is the presence in the burgher ranks of all nationalities, the Irish and Americans being largely represented, but the Frenchman and the German and the Hollander and Italian are there also, and it all helps to the breaking down of racial antipathies and makes for the international solidarity of all. Everything is full of hope, and we are certain that we are going to emerge from this struggle all the better for its happening.

"Arthur Lynch is here and leaves for the Tugela front in a day or two as colonel of the Second Irish corps. No doubt you will hear of him when there happens to be more fighting. Would we had a few hundred more like him! It would make the struggle all the easier. But in spite of all difficulties 'we will arrive.' Our commissariat and other arrangements are excellent, and it speaks volumes for the heads of departments that everything has gone on without scarcely a single hitch.

"The Boers are spoiling the prisoners taken by their kindness, and I can assure you that I have heard from the lips of prisoners taken that they were really glad to be out of the war, for they had no heart in it. One prisoner whom I captured at the Tugela said to me on my disarming him that he had a brother with the soldiers and that he was sorry that his brother had not also been taken. Meanwhile there is scarcely a single case of sickness in our lagers, and every man is ready, as he was at the beginning of the war. On the other hand, the camps of the soldiers are full of sick, and many are sick of the war."

AIRSHIP MATCHES.

Large Prize Offered For Contests to Be Held In France.

A prize of 100,000 francs has been offered by M. Henry Deutsch to any one, irrespective of nationality, who will make an aeronautic tour successfully, starting from the park of the aeronauts at St. Cloud or from Longchamps or from any other place situated at an equal distance from the Eiffel tower, and who will in half an hour have doubled this tower and have descended at the point of departure.

Aeronauts who enter into this competition are expected to provide new aeronautic inventions to enable them to accomplish this feat, and dates will be arranged for a practical test of such apparatus as is considered good, says the Paris correspondent of the Philadelphia Public Ledger. All who present flying machines, balloons or similar aeronautic apparatus are expected to bear their own expenses until one of them has won the prize under the conditions named. Should several win the prize will be apportioned among them. If not won in five years, the prize is to be withdrawn.

NEW FORAGE PLANT.

Valuable One Said to Have Been Discovered by Professor Hilligard.

Professor E. W. Hilligard of the agricultural department of the University of California has discovered an edible plant to take the place of sagebrush and equal in forage value to alfalfa, barley or hay. If his claims are true, the discovery is of great value to Wyoming farmers and stockmen, as it can be grown on arid and alkali soils.

The new plant, according to a Cheyenne (Wy.) dispatch to the New York Journal, is called semibaccati. It grows from a central stem root which radiates a system of roots. It spreads from the center root upon the surface many long stems reaching from one to nine feet. Upon these stems grow a small leaf and seed pod. It drops seeds in great abundance, covering them with dry leaves, by which they are protected from heat and winds. It is perennial.

The plant was found in Australia and brought to California, where it has been grown experimentally and practically.

Worth Reading.

"You will find enclosed thirty-one one-cent stamps for one of Dr. Pierce's Medical Advisers, cloth bound," writes James E. Crempton, Esq., of Sharpsburg, Washington Co., Md. "This book is for a friend of mine who is using your 'Golden Medical Discovery,' and I cannot praise your medicine too highly. I was in business in Baltimore and had rheumatism for three months; couldn't walk at all. I tried the best doctors I could get, but they did me no good. I took three bottles of Dr. Pierce's Golden Medical Discovery and it cured me sound. I came home to Sharpsburg, and there were three cases of different diseases. I advised the patients to use Dr. Pierce's medicines, which they did, and all were cured."

"Golden Medical Discovery" contains no alcohol, cocaine, nor other narcotic.

Miss Terry's Kindness.

Miss Ellen Terry did a very pretty thing during her recent visit to Washington. At Kendal Green is a blind asylum, which Miss Terry visited. She became greatly interested in what she saw there, and especially so in the patients. She sent a number of them tickets for one of her performances, in order that they might hear if they could not see her play. But her kindness did not stop there, for when her guests in thanking her expressed the regret they felt that they could not look upon her face, she had medals struck showing her profile and sent one of them to each of her guests.

The very appearance of Sutherland's Eagle Eye Salve signifies that the remedy is new and original in itself. It is prepared for the eyes and is recommended for nothing else. A Bank of England Curiosity.

One of the curiosities of the Bank of England is to be seen in the printing-room. A man sits at a desk, and every three seconds a machine delivers to him two complete £5 notes. If he sits there six hours he receives over £70,000, and in 300 days over £20,000,000 sterling.

Electric Power for Venice.

It is proposed to utilize the river Cellina and part of the river Piave in Italy for the generation of electrical power for transmission to Venice. The Cellina is capable of supplying 10,000 horse power at a distance of 59 miles. The Piave scheme offers 27,000 horse power conducted 43 miles distant, and the amount could even be increased.—Electrical World.

Too Familiar in a Stranger.

Professor John Snelling Popkin was professor of Greek at Harvard some years ago and he was not without a nickname, which he accepted as a matter of course from the students, but hearing it on one occasion from a man of dapper, jaunty, unacademic aspect, Professor Popkin exclaimed: "What right has that chap to call me 'Old Pop'? He isn't a student of Harvard college."

The River Jordan.

The River Jordan is a very small stream, a mere creek flowing through the sand. Its width is about 100 feet, its depth five to twelve feet. Thickets of reeds cluster upon its steep banks, making access difficult. Its swift current and a foot of tough mud beneath its cold waters make bathing in the sacred river a risky experiment rather than a pleasure.

A New National Park Proposed.

Representative Lavey has introduced a bill to set apart certain lands in the territory of Arizona as a public park, to be known as the Petrified Forest National Park. It shall be under the exclusive control of the secretary of the interior, whose duty it shall be to prescribe such rules and regulations and establish such service as he may deem necessary for the care and management of the same. Such regulations shall be provided specially for the preservation from injury or spoilation of the mineralized or fossilized formations or deposits, natural curiosities and wonders within the park.—Washington Times.

Pungent Remark About a President

President John Quincy Adams once asserted that he would not give 50 cents for all the works of Phidias and Praxiteles, adding: "I hope America will not think of sculpture for two centuries to come." When some one quoted this to William Morris Hunt, he asked dryly: "Does that sum of money really represent Mr. Adam's estimate of the sculpture of those artists, or the value which he places upon 50 cents?"

A Curious English Stone.

One of the most curious stones of England forms a part of the wall of Upton, near Chester. It is merely a large flat stone, with a hole in the center. Centuries ago it stood just outside of London, and formed the socket for a cross. The coming of the great plague, in 1665, found the cross demolished and only its foundation remaining. To this stone the country people around the stricken city brought their produce for the city people and left it in the night. They also filled the hole in the center of the stone with vinegar. In the day time the city folk came to the stone, took away the produce and left the money in the vinegar, so that it would not infect the farmers with the plague.

M'KINLEY ARRAIGNED.

Which Master Does the Republican President Obey?

Hon. Thomas Nolan, temporary chairman of the Nebraska Democratic state convention, in his opening address thus arraigned William McKinley:

"A man nursed at the free flowing bosom of corporate power, the server and employee of syndicated wealth while in private life and the willing recipient of munificent donations from those who were the beneficiaries of his official life perhaps would be honest if he could.

"I am the product of $40,000,000. I hold in one hand the destinies of 70,000,000 of people and in the other my bounden obligations to those who gave so freely to my ambition, and the question in my mind is, Would it be right for me to be impartially just?

"Eighteen ninety-six was a field day for lucre. Price, the 'Pater Noster' in the prayer book of trade, placed its black marks in the forehead of American manhood; the appeal of flesh pots to appetite prevailed; honor, stunned and staggered, went down, and McKinley went up.

"Coming forth triumphant from such a contest, was ever man more indebted to 'business friends' than he?

"Gratitude for vast favors is a moral obligation. An oath of office can be but little more; both are masters. Tell us, Republican, which master does your president obey? And tell us further which should he obey?"

TOO GREAT A RISK.

Re-election of McKinley Would Menace Our Liberty.

McKinley will be nominated, and if he should be re-elected he would be more than ever the abject tool of the protected interests and trusts generally. These interests made him, and they will again exact their own compensation.

Can the people of the United States afford to take such a risk? Then, too, the Republican senators and representatives who have had the courage to defend the constitution will be defeated for renomination, so far as it lies in the power of Hanna and his lieutenants to keep them at home. No Republican will be allowed to go to Washington who does not wear the trust collar. The humiliations of the present session will not be repeated if the party bosses can prevent it.

The people of the United States have it in their power to defeat the administration programme, and if the rising tide of anti-imperialism and antitrust feeling is any criterion they will do it. —Los Angeles Herald.

WANTS VASSAL COLONIES.

Hanna Has a New Argument For Holding Island Possessions.

Mr. Hanna has a new argument in favor of holding our new possessions as vassal colonies. He says that if we have free trade with the Philippines the workingmen will vote against Mr. McKinley this fall; so that the question is not one of right and justice at all, but a question of securing a partisan advantage.

What Mr. McKinley regarded in December as "our plain duty" he now says would be in the nature of a calamity to his party. We do not see how free trade with the Philippines can have any effect on American workingmen. But this is Mr. Hanna's argument, and it has had a powerful effect on our amiable president.

But what about the "open door in the east?" Are we going to put a tariff wall around the Philippines and then demand the open door in China? Really, we suppose that even Mr. Hay would perceive that this sort of thing involved grievous complications.—Atlanta Constitution.

Wanted to Know.

Mr. Congressman Sulzer of New York had the opportunity recently to make some pertinent remarks on the absence of any official sympathy with the Boers in their struggle for liberty. He put the matter tersely, but strong, when he said: "A republic that will secretly aid a monarchy to destroy a republic and blot out its free institutions is a republic rotten to the core, and will soon fall like a decayed tree on the banks of a turbulent stream, to be swept away forever. In my opinion, the defeat of the Boers will be the severest blow to republican institutions that has been struck in more than a century." Mr. Sulzer wanted to know why every resolution of sympathy yet introduced still slumbers in committee.—Evansville (Ind.) Courier.

Our Republic a Mistake.

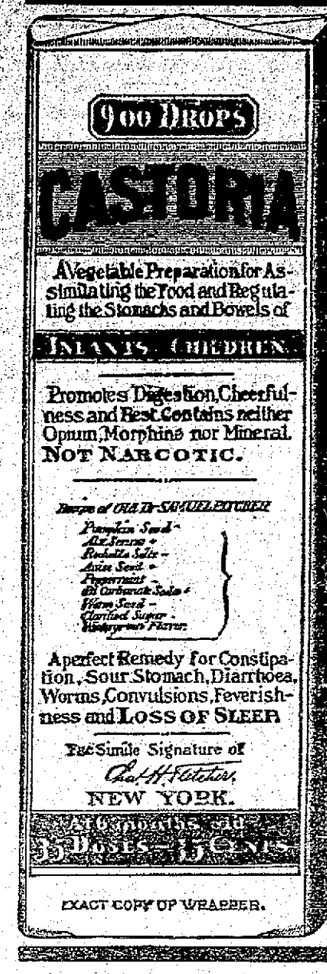

Ex-Senator Edmunds says of the Porto Rican tariff bill: "Any such measure, if enacted, will, I believe, be unique in our whole history. It will imitate and parallel the acts of the British parliament which forced our fathers to just resistance and revolution and led them to establish a constitution which, in studied and explicit terms, forbade any such discrimination." Why should we be so unique and so un-American? Was the formation of this great republic a mistake, and was George III a profound statesman?—St. Louis Post-Dispatch.

Won't Stay Dead.

The gold standard bill was passed weeks ago, but the Republican organs have got so in the habit of slaughtering silver once in two weeks that they cannot stop. "The silver question" is dead again.—Grand Rapids (Mich.) Democrat.

Tit For Tat.

From the standpoint of justice as it is defined in the dictionary it is a paradoxical diplomacy which insists that the Chinese open their door to our trade while we shut ours to theirs.—Kansas City Times.

GRAND OPENING

All next week at the new hardware store, on corner of Spring and Main streets. We have spared no pains in arranging our store in an elegant manner, saying nothing of our show windows that we are paying a fancy price to have trimmed for this special occasion. With the personal effort we are making for the entertainment of the people in connection with the exhibition of the Majestic Range as described below, it will be a treat to everybody who calls.

FREE! ALL NEXT WEEK FREE!

Majestic Cooking Exhibition.

Think of it—biscuits baked perfectly, browned top and bottom in THREE MINUTES. We don't ask you to accept this statement on the bare assertion, but we do ask—and extend to every one in this community—a cordial invitation to be in attendance at our store any day next week from 9 a. m. to 9 p. m., and see this wonderful baking performance with your own eyes, have a dainty lunch and a delicious cup of coffee with us, and hear the demonstrator from the Majestic factory explain why a

Majestic Malleable Iron and Steel Range

Bakes so quickly and so perfectly. When you have examined this modern cooking wonder you can readily see from its construction why this is true.

MAJESTIC RANGES are entirely different from all other cooking apparatus. Will not clog with ashes and clinkers, allow smoke and soot to escape into the kitchen, crack or break, or subject you to expense and annoyance of every other cooking apparatus.

Made of MALLEABLE IRON and best hearth cold-rolled steel, 10 to 50 per cent heavier throughout than any other range. Flues lined with pure asbestos, and the entire range riveted with the best Norway iron rivets. Air tight and dust tight. This explains why a Great Majestic Range will do its work in half the time, and consequently with half the fuel.

After investigating we find the claims made of MAJESTIC RANGES are true to the letter, and have selected them for our range department, and give our personal guarantee that the Great Majestic Ranges are the most complete, durable, dependable and economical range made, and that's why, at great expense, we're having this cooking exhibition. We want all our citizens to see for themselves the proof of the claims made for Majestic Ranges.

A Valuable Present.

We are going to give, absolutely free, to every purchaser of a Majestic Range during the sale only, a complete set of the celebrated Majestic Cooking Ware, made of copper, steel and enamel, worth $7.50—cheap at that and the best at any price.

MAJESTIC RANGES are made in all styles and sizes, to fit every condition and every purse. Examine the Majestic Ranges—glad to show it to you whether you intend to buy or not.

BY THE PEOPLE'S WILL.

In expressing his approval of the constitutional amendment providing for the election of United States senators by direct vote of the people, Mr. Bryan effectively points out the evils existing under the present method and makes a strong plea for the contemplated reform.

It is undeniably true, as Mr. Bryan says, that the selection of senators by state legislatures enables men to get into the United States senate who were not the choice of the people. It is equally true that senatorial contests interfere with the real duties of a legislature at great expense to the people, the most recent proof of the truth of this being found in the fact that last year four state legislatures were thus dead-locked throughout entire sessions. And it is certainly true that if the people are intelligent enough to elect governors and congressmen they are intelligent enough to elect senators.

There is no doubt that public sentiment is heartily in favor of the change of election methods proposed in the constitutional amendment now awaiting definite action in Congress. There is no doubt that the personnel of the United Senate will be improved if this reform shall be put into effect. There will be fewer millionaires in the Senate, and fewer men whose sole desire for a seat in that august body is based on a belief that they can there best advance certain interests not always in harmony with the general welfare. The senate will be closer to the people, more genuinely representative and, therefore, more truly American in nature and achievement.

The proposed amendment to the Constitution is wise and timely. It is to be hoped that the National Congress shall see fit to act favorably on the resolution authorizing it. The popular feeling is strong in its favor, and the people are prepared to heartily indorse the accomplished reform.

HE MUST DISSEMBLE.

It is evidently understood between Mr. McKinley and his English friends that the President's earnest and enthusiastic Anglomania must be for the present so effectually held in check as to give no visible manifestations that might injure his chances of re-election to the presidency of the United States.

The British thoroughly recognize the delicacy of Mr. McKinley's position. The London Spectator, the mouthpiece of government opinion in England, kindly informs the President that he will be allowed for a time to pose as being entirely superior to British influence. The Democracy, says the British organ, is likely to say some hard things about the British in the campaign now opening. President McKinley must do nothing to offset these bitter words. He "will persist in his policy," the Spectator admits, but he "cannot bear", with the second term at stake, to lose a vote. Mr. McKinley, therefore, and the Republican leaders will do nothing to show themselves friends of Great Britain."

It is reassuring to learn that the British government will not be overhasty in judging Mr. McKinley by his acts during the campaign of 1900. It is true, as the Spectator intimates, that the President will be afraid to betray the full extent of his Anglomania while he is a candidate for re-election. It would be humiliating indeed if the British took offense at this and so pulled the strings controlling Mr. McKinley as to make him totter or stumble or wabble on the stump. It will be much better to keep quiet and trust to his being re-elected, knowing that all will then be well and British domination over American policies once more established.

Whether or not the American people can be fooled by these tactics, Washington now for the country to be entirely content with the situation. They may demand an American administration rather than an Anglo-American. And if they do, why, of course, Mr. McKinley and Mr. Hay and certain others must retire from office. —St. Louis Republican.

DEMOCRATIC CIRCUIT COURT JUDICIAL CONVENTION.

The Democrats of the Third Judicial Circuit District of Ohio, will meet in convention at Lima, Ohio, Wednesday, April 25th, A. D., 1900, at 10 o'clock a. m., for placing in nomination a candidate for circuit judge for said Third Judicial Circuit District of Ohio, and for the further purpose of transacting such business as may properly come before said convention.

The basis of representation in the convention will be one delegate for every one hundred votes cast for Hon. John R. McLean for Governor in 1899, and one delegate for each fraction of fifty or over. Under the apportionment, the several counties will be entitled to representation as follows:

Allen county	46
Auglaize county	40
Crawford county	45
Defiance county	32
Hancock county	43
Hardin county	40
Henry county	35
Logan county	23
Marion county	36
Mercer county	40
Paulding county	24
Putnam county	47
Seneca county	49
Union county	24
Van Wert county	36
Wyandot county	30
Total	591
Necessary to a choice	361

The Democratic circuit court committee of said district at its meeting held in the city of Lima, on the 24th day of March, 1900, adopted the following resolution: "No person appointed by a committee or committeeman shall be seated as a delegate in the convention this day called, except where they have already been selected or appointed, and the election of delegates shall be held in such manner as is prescribed by the proper local Democratic committee of each county."

The Democratic committee will meet for the election of temporary officers of the convention at the Norval hotel, in the city of Lima, on the 24th day of April, A. D., 1900, at 9 o'clock p. m.

By order of the Democratic circuit court committee of the Third Judicial District of Ohio.

AN OPEN LETTER TO THE PUBLIC.

The public is already advised that the Grand Jury lately in session returned against me an indictment charging larceny of the funds of the American National Bank, in December, 1898. Possibly many persons are no better informed than I was myself until recently, concerning the proceedings of a Grand Jury. They do not know that the investigation is held behind closed doors; that only witnesses for the prosecution appear before this body; and that neither the defendant, or his witnesses, or his counsel, can appear or offer a word of explanation or defense. This being so, I sincerely hope and trust that the public, which has been so fair and kind to me during all my trouble growing out of this mysterious and unfortunate robbery, will suspend its judgment until my trial occurs.

If truth prevails, I will never be convicted on this or any other charge growing out of this robbery, for it seems impossible in this land of America that an innocent man should thus suffer such a wrong.

The plain, unvarnished facts are that I am the victim of a black conspiracy. Some from whom I had a right to expect at least fair treatment have conspired with hirelings in an attempt to blackmail me into the payment of money. The public has not forgotten how this man Webster attempted for several days to have me come to the Lima House, with the threat that if I did not come I would be arrested; neither have I forgotten a fact which the public generally do not know—that Mr. Gus Kalb did everything in his power to have me dishonor myself by heeding the demand of this man Webster, advising me to go to the Lima House and see what I could do toward settling this matter and hushing it up. My answer then was, as it is now, that in defense of my good name against any charge, I was willing to spend my all, but no penny of mine should be paid to hush up anything. Of course the ordeal is terrible—worse for my dear ones than for me—but I am ready to meet it. May I have the kindness of your suspended judgment, is all that I request; that I have the sympathy of many, I already well know, and for this am profoundly grateful.

Most respectfully yours,
N. L. MICHAEL.

Will Be Well Cared For.

Lima Preparing For the Judicial Convention

Where the County Caucuses and Committee Meeting will be Held on Day of the Convention.

On Wednesday of next week the convention of delegates from the sixteen counties, comprising local circuit judicial district will be held in the opera house in this city and as there is a spirited contest on between the several candidates for the nomination for circuit judge it may be expected that every one of the 601 delegates elected will be present either in person or by proxy and in addition many other friends and supporters of the candidates will be Lima's guests. At least one thousand visitors will be here on the day of the convention and the judicial committee is making every arrangement possible to assure the accommodation and comfort of the delegates and other visitors. Each delegate has been forwarded a circular letter designating the name, locations, rates and capacity of the various hotels in the city, as most of the delegates will arrive on the day preceding the convention, and the following program will also be provided for their instruction:

PROGRAMME.

The convention will be called to order at eleven o'clock a. m. at Faurot's Opera House, by J. H. Goeke, Chairman of the Circuit Court Committee, for temporary organization.

The delegates from the various counties will meet at the places hereinafter designated, at 10 o'clock a. m., April 25th, 1900, for the purpose of selecting one member for each of the following committees, to-wit:

Committee on Permanent Organization.

Committee on Rules and Order of Business.

Committee on Credentials.

Committee on Resolutions.

Members of Circuit Court Committee for ensuing two years.

The county delegations will meet at the following named places:

Allen county at Probate Judge's office, court house.

Auglaize county at Cloyd Brotherton's law office.

Crawford county at Richie & Richie's law office.

Defiance county at Motter & Mackenzie's law office.

Henry county at lower court room, court house.

Hancock county at Sheriff's office, court House.

Hardin county at Ridenour & Halfhill's law office.

Logan county at Judge Cunningham's office, court house.

Marion county, room No. 10, court house.

Mercer county at recorder's office, court house.

Putnam county at upper court room, court house.

Paulding county, auditor's office, court house.

Seneca county at Graham & Adgate's law office.

Union county at Judge Lowery's office, Jacobs block.

Van Wert county at Richie, Leland & Roby's law office.

Wyandot county at clerk's office, court house.

The members of the various district committees will meet at the following places for the transaction of business:

Permanent organization at Wheeler & Brice's law office.

Rules and order of business at H. O. Bentley's law office.

Credentials at Klinger & Quail's law office.

Resolutions at parlor Lima house.

Circuit court committee at room 16, hotel Norval.

By order of circuit court committee.

J. H. GOEKE, Chairman.
E. H. MAINS, Secretary.

In the event of the nomination of Judge William T. Mooney, and he is now picked as the winner, another convention will be held later for the purpose of nominating his successor. The delegates in Allen and Van Wert counties were chosen simply as judicial delegates and therefore will serve also as delegates to the district convention.

Some time during this week Mr. A. Simoyan will be in Lima with a full line of Eastern rugs which the ladies of Lima will be interested in seeing.

Another Citizen Who Adds His Testimony to What Has Already Been Said.

The people of this State do not hesitate to add their testimony to that of other citizens who have used Morrow's Kid-ne-oids for kine back and all ailments arising from disordered kidneys. Kid-ne-olds will cure dizziness, sleeplessness, nervousness and all kindred ailments. Here is what Mrs. Wm. Bindle, of 306 west 7th street says:

"I have suffered with kidney trouble for two years, also with nervousness and sleeplesiness. I was so bad at times that I could scarcely get about. I commenced to take Morrow's Kid-ne-oids and Liver-lax and relief came swiftly and surely. I am now entirely relieved of kidney backache and my nerves are quieted and strengthened. I cannot say too much in favor of Morrow's Kid-ne-oids and Liver-lax."

Morrow's Kid-ne-oids are not pills, but Yellow Tabets and sell at fifty cents a box. Morrow's Liver-lax are small red granules and sell at twenty five cents a box. Both these remedies can be purchased at all drug stores and at Wm. Melville,s drug store.

The entertainment committee, Mesdames Boone, Catt, Grosjean and Morrison, certainly have cause for congratulation over the success of their efforts, for every one certainly had a royal time.

Yesterday afternoon Mrs. Ira P Carnes' home, on west Market street, was filled with several hundred ladies, who called to meet Mrs. C. L. Robb, of Bellefontaine, and to greet the debutante, Miss Sabine Carnes. The ladies in line wore beautiful toilettes and the numerous callers were in Easter attire. In the duties of assisting in the parlors were seen Mesdames R. C. Warner, J. M. Thomas, George Vicary, John Ashton, J. G. Neubauer. At the frappe bowl and in the dining room refreshing dainties were served by Misses Belle Folsom, Lillian Campbell, Bonnie Bourquin, Kitty Oxley, Mary Gray and Lenore Vail in dainty organdie gowns. An excellent orchestra in the west parlor made sweet music throughout the hours. The rooms were decorated with asparagus fern and Easter flowers.

The Easter recital of the Nevins Mesical was a very pretty affair on Thursday at the home of Miss Inez Lowe. A short but excellent program was enjoyed by the members and the following guests: Misses Harriet and Elizabeth Moore, Jessie Boone, Irene McCoy, Florence Campbell and Bonnie Bourquin, the latter also adding to the program a piano number. Dainty refreshments concluded the meeting.

The Wimodaughsis met Thursday with Mrs. Wm. McComb, of north Elizabeth street, for their first annual meeting and election of officers. The decision in regard to these able ladies was so flattering that all were re-elected to their various offices for the ensuing year. A social chat and refreshments followed.

The meeting of the Arbutus club wieh Mrs. W. H. Leete will be postponed one week on account of Mrs. Brice being out of the city.

Mrs. Elmer Rudy very pleasantly entertained the Woman's Culture club Thursday afternoon at her beautiful new home on west Wayne street. After a course of reading a delicious two course luncheon was served.

Wednesday evening Mr. Willie Davis was tendered a delightful surprise at his home on south West street in honor of his seventeenth birthday. Music and games was the principle features of the evening. Those present were: Messrs. Dan. Dimond, Eugene Warner, Ferd Dimond, Clarence Hutchinson, John Kenrick, Jan Dimond, Frank Rutledge Willie Davis John Dimond, of Lexington, Ohio, and Misses Margaret Ebner, Ceceka Dimond, Julia Scully, Ella Duggan, Jenette Kemper and Edna Davis.

Mrs. P. L. Rouzer entertained a company of ladies very pleasantly at her home on east North street, Thursday evening to a six o'clock dinner in honor of her guest Mrs. Mary Rouzer, of Tippecanoe.

The ladies of the Sorosis club will meet with Mrs. S. J. Mooning, 1018 west Wayne street on Monday evening, April 23d.

"Catch the opportunity." By taking Hood's Sarsaparilla now you may build up your health and prevent serious illness.

REV. SWANSON

Delivers an Address in the Session at Toledo

Of the Toledo Congregational Association Committee to Select Next Meeting Place.

Concerning the closing session of the annual meeting of the Toledo Congregational Association, the Toledo Blade says:

"At the evening session, Rev. I. J. Swanson, of Lima, spoke on "The Evidence of the Common Authorship of Nature and Revelation," and Rev. J. C. Fraser, of Cleveland, spoke of the contributions of Congregationalism to civilization and humanity. In the latter address, Dr. Fraser traced the history of the Puritans and their influence upon civilization."

"Dr. G. A. Burgess, of the Washington Street Congregational Church, made the closing address of the meeting on "The Bearing of Recent Archæology on Revelation." Dr. Burgess referred to the discoveries of old inscriptions and their translation in recent times, and spoke of the encouraging interest being shown in Bible study."

Columbus and Plain presented requests for the next meeting, but the selection of a meeting place will be left to the business committee, composed of Revs. F. D. Kelsey and I. J. Swanson.

Dr. James Chambers conducted the closing devotions of the session.

Rev. Swanson upon returning home stated in addition to the above information, that during the session he was elected moderator for the ensuing year and two new Congregational Churches were admitted to the association—the west Lima Congregational Church and the May-Flower Church, of Toledo.

STREET LOUNGER.

"Talk about the miserable service of the Lima Railway Co.," said a well known citizen this morning, to a TIMES representative, "I can give you a sample of it which in my estimation caps the climax. I was coming north on a car this morning, and when the car reached High street, the motorman spied a friend standing in front of the city building. He stopped the car, walked up to where the friend was, held a conversation with him, the two walking back to the car together, where they held another confab, while the passengers waited."

"I have often seen them stop a car at a restaurant and go in for a lunch," said the patron of the "fast line," "but to stop to hold conversations, while the passengers wait, I think is a little too much, for a man of an ordinary temperment."

J. W. E. Attleberger, the genial and popular landlord of the Harrod house, has leased the Carr property, on east North street, and will open up May 1st. Besides the main business room which he will use for his lunch and sample room there are nineteen sleeping rooms in connection with the house. Considering the location, just east of the Norval hotel, it will be one of the neatest and most desirable houses in the city after Mr. Attleberger has all conveniences arranged for his friends and patrons.

The new proprietor of the Harrod, will be Lester Harrod, son of Minor Harrod, owner of the House.

The Street Lounger was a bit too caustic last night in his criticism of the driver of the laundry wagon which collided with the 8-year-old lad on Main street Thursday afternoon. An eye witness of the circumstance is authority for the statement that the driver did stop his wagon and waited at the curb until he was informed how badly the lad was injured. He then proceeded on his way.

PROGRAM

Offered by Christ Episcopal Church During Convocation.

The Toledo Convocation will meet in Christ Church, Protestant Episcopal, cor. North and West streets, Monday and Tuesday. The Dean, the Rev. A. Leffingwell, of Trinity church, Toledo, will preside, and the Archdeacon of Ohio, the Rev. A. A. Abbott, will be present and address the session. The following special features of the program will be of interest to the general public:

Monday, 7:30 p. m., Sunday school institute, at which the Rev. H. L. Duhring, of the City Mission, Philadelphia, has been secured to make the address.

Tuesday, 10 a. m.—After a business session, the "Question Box" will be opened.

2 p. m—Addresses by Rev. R. L. Herns and T. N. Barkdull, of Toledo.

7:30 p. m.—Brief service followed by the "Question Box".

The convocation is occupied with discussion of matters pertaining to church extension and Sunday school work. All persons are cordially welcome.

Beside the above program, there will be a social gathering of the men, young and old, of the Parish at the residence of Mr. W. M. Irish, 123 north West street, at 9:30 p. m., Monday after the church session.

Holy communion will be celebrared at 9 a. m. and midday prayers for mission offered at noon on Tuesday.

At San Jose, Cal.

The widespread interest that is taken in the doctrines of Christian Science was clearly manifested at the Victory theatre last evening (Thursday, March 1), the occasion being the address of Hon. William G Ewing, of Chicago, who had announced as his topic "Christian Science, the Religion of Jesus Christ." A half hour before the time set for the meeting to open every seat in the building was occupied, many persons were standing in the aisles and lobbies, and many more turned away on seeing the crowded condition of the building.—San Jose Daily Mercury.

PAINE'S CELERY COMPOUND

Keeps Nerve and Ambition Strong

REV. FRED PFEIFFER, SEDALIA, MO., Writes:

"My nervous system was entirely broken down by overwork. I could not eat nor sleep. For four months I was in the hospital, but without any decided benefit. At last, I purchased a bottle of Paine's Celery Compound, and soon felt its wonderful curative effects. Four Bottles of the Compound restored me to health and strength; I am now ambitious to work, have a good appetite, and sleep well."

There is no strength and ambition to work when the nerves and body are weak or diseased. Paine's Celery Compound sustains the strength of the nerves and of the stomach, liver and kidneys.

TRUST GOVERNMENT

A Government Of, By and For the Corporations and Combines.

Hon. Thomas Nolan, temporary chairman of the Nebraska Democratic state convention, in his opening address thus described our government under the McKinley administration:

"Why has it become necessary in discussing the presidency of our nation to consult the private interests of the stock jobber, the usurer and the ironmonger? Did the men whose names are affixed to the Declaration of Independence consult these influences? Did Washington do so before he wrote his farewell address? Or did Lincoln consult Hanna before he dared to declare that this was a government of the people, by the people and for the people?

"No, because government then meant 'the right to life, liberty and the pursuit of happiness.' Now it is a corporate asset. But they tell us that we must descend even lower and consult the trusts. But before we do this let us inquire what manner of thing a trust is. A number of men, realizing that it is unsafe and unpleasant to do certain things as individuals, meet in a room; an inventory is taken of all that which is bad in each; then they assign, transfer and deliver to that which they are creating every part and parcel of greed, selfishness and cruelty which they and each of them possess, seal and sign the compact, then retire to the seashore to reflect upon the beauties of a strong government."

REPRESENTS TRUSTS.

Republican Party In No Sense Represents the People.

Significant is that story from Washington, which tells of the double barreled opinion on the Porto Rican trade problem rendered by Law Officer Magoun of the division of insular affairs. Before the trust had spoken, and with Mr. McKinley still inclined to deal justly with the Porto Ricans, Mr. Magoun declared that the American constitution extended to Porto Rico and made free trade with that island imperative. But when the syndicates did speak, swerving their weathercock president around to their view, Mr. Magoun changed his mind also, declaring that Porto Rico is not a part of the United States and that congress may deal with the island as it sees fit.

The people of the United States must accept the significance of the record now being made by the administration party. They may not safely blind themselves to the meaning of such a record. In no sense and in no degree does the Republican party now represent the people. It represents the syndicates. It does what the syndicates command. It draws its financial support from the syndicates. It stands against the people for the continued aggrandizement of the syndicates. It should be called to judgment at the polls on this charge of betrayal of the people.—St. Louis Republic.

Nothing but Banks.

The Chicago Record deplores the loss of $15,000 by the Italian depositors of a Chicago bank and complains as follows:

"In the countries from which these immigrants come there are postal savings depositories, where small savings can be placed with absolute assurance that the money will be returned when needed. In the United States there is no such encouragement to habits of thrift. The immigrant, if he would save his money, must make use of such banks as he finds, and too often in his ignorance he deposits his money in some bank which is not at all certain to pay it back."

The Record applauds the currency bill because it will give us more banks. Indeed anybody with $25,000 of bonds may issue $27,500 in cash money. These things do not jibe. If the banks we have are unsafe, how are they going to be made safer by increasing their number and giving them authority to issue wildcat money? The whole body of the people are put in the same condition as the swindled immigrants. If there is anybody immune from the robbery, the rulings of the secretary of the treasury will cure the omission.

Amending the Constitution to Suit.

Senator Beveridge made a very correct definition of the doctrine of "implied powers" as usually enforced when he said it meant that "where our constitution is not broad enough to give play to our institutions the courts will read our institutions into our constitution." For example, our constitution was not broad enough to give play to our institution of untaxed wealth, and so when the income tax case came up the supreme court read into the constitution a provision that an income tax should not be levied. It is just such things that make the people understand that judges can be as great rascals as some of the culprits they send to the penitentiaries.—Indianapolis Sentinel.

None of the People's Business.

When Speaker Henderson snarls at the Iowa legislature that "it's none of the legislature's business," he virtually tells the whole people it's not your affair, but altogether a matter for congress to decide at its leisure, in its own way and without this popular meddling." Mr. Speaker, you are on mighty dangerous ground right there. The people have the last word in this country.—Chattanooga News.

Everything Wabbles but Taxes.

Sometimes it seems as if congress wabbles the president, and at other times it seems as if the president wabbles congress. Meanwhile there is no wabble to our big war tax.—St. Louis Post-Dispatch.

A Grave Mistake.

Even the Republican organs admit that the administration has made a mistake in coming out openly for imperialism.—Atlanta Constitution.

St. Vitus' Dance Cured by Dr. Williams' Pink Pills for Pale People

Mrs. Minnie Fiedler, of Mt. Pleasant, Iowa, says:

"I was afflicted for years with St. Vitus' dance. The first symptoms of the disease began in 1889, when the nerves began twitching in my left hand. I consulted physicians of this city, but none of them ever did me a particle of good. After I had suffered for two and one half years, the disease continuing to grow worse, I heard of Dr. Williams' Pink Pills for Pale People.

"It was in 1891 that I was induced to try them, and I was surprised at my rapid improvement. I took only two boxes, and was entirely cured. It was hard to realize that I, who for over two years was scarcely able to walk, and who often found it almost impossible to talk, should be restored to perfect health and in full possession of all of my powers by two boxes of this wonderful remedy.

"I am happy to state that my health is still perfect and I have never had the slightest symptoms of a return of the disease, although it is eight years since I was cured."

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia rheumatism, nervous headache, the after-effects of la grippe, palpitation of the heart, pale and sallow complexions, all forms of weakness either in male or female.

Dr. Williams' Pink Pills for Pale People are never sold by the dozen or hundred, but always in packages. At all druggists, or direct from the Dr. Williams Medicine Company, Schenectady, N. Y., 50 cents per box, 6 boxes $2.50.

WINE OF CARDUI

A SURE MEDICINE.

HANDSON, VA., Dec. 31.

I have been suffering from female weakness for four years, and have taken many medicines, but Wine of Cardui and Black-Draught have done more for me than anything else.

MRS. CAROLINE EVANS.

McELREE'S Wine of Cardui

It is a mistake to take any and every kind of medicine when you are sick. There is danger in it. Most of the so-called cures for "female weakness" do nothing more than deaden the pain temporarily, and when the effect wears away the patient is weaker and sicker than before. It is never wise to take chances. You have only one life, and that is dear and precious. If you have any pain, ache, disorder or weakness in the feminine organs, nothing will help you like Wine of Cardui. It helps do away with morning sickness during the early stages of pregnancy, and modifies the pains of childbirth; recovery is rapid and future health is assured. The Wine is purely vegetable, being made of herbs whose medicinal properties act directly upon the organs of womanhood. It is a long-tried remedy, and has many years of success behind it. It is sure. Why take a chance medicine when you can get a sure medicine?

Labels of Organized Labor.

There are now fifty-nine labels, three cards and one badge recognized by organized labor. The unions using labels indorsed by the American Federation of Labor are: Cigarmakers, printers, boot and shoe workers, hatters, woodworkers, tailors, molders, gold beaters, horsenail-makers, salmon fishermen, bakers, coopers, tanners and curriers, teamsters, leather workers, brewery workers, mattress-makers, broom-makers, carriage and wagon makers, brick-makers, bicycle workers, bottle-blowers, brush-makers, metal polishers, machinists, horseshoers and canmakers. The clerks, barbers and waiters have a card and the agents have a badge.

That Throbbing Headache

Would quickly leave you, if you used Dr. King's New Life Pills. Thousands of sufferers have proved their matchless merit for Sick and Nervous Headaches. They make pure and build up your health. Only 25 cents. Money back if not cured. Sold by H. F. Vortkamp, corner Main and North streets, druggist.

A Mammoth Machine Belt.

One of the largest belts for machinery that has ever been produced was recently finished by the Gutta Percha and Rubber Manufacturing company of Toronto. The belt was of rubber, and measured 3,528 feet in length, over two-thirds of a mile. Its weight was nine tons. This mammoth belt was made for the grain elevator of the Inter-Colonial railway, at St. John's, N. B., and is now in use there. —Baltimore News.

LA GRIPPE coughs often continue for months and sometimes lead to fatal results after the patient is supposed to have passed the danger point. FOLEY'S HONEY AND TAR affords positive protection and security from these COUGHS. H. F. Vortkamp, cor. North and Main streets.

Wear Sandals in the Mud.

A sandal society has been started in Berlin, and on a Sunday not long ago forty men and women wearing sandals marched through the muddy streets.

Rough on German Bands.

German bands in London complain that their receipts only amount to half those of this time last year, owing to the feeling created by the war.

Noted Healer in Town.

The greatest healer of modern times is BANNER SALVE, for cuts, wounds, sores, piles and all skin diseases. Guaranteed. H. F. Vortkamp, cor. North and Main streets.

The Comstock Lode.

The location of this famous silver and gold bearing mine, the Comstock lode, is under Virginia City and Gold Hill, Nev. It contains more miles of underground streets than the cities above, and extends in places to a depth of 1,000 feet. Some years ago a great tunnel four miles long and named for the projector, Mr. Sutro, was built through Mount Davidson, for the purpose of intercepting the Comstock lode. The estimated cost of the tunnel was $5,000,000, and the lode has been claimed to be the most profitable mining property in the world, it being credited with a yield of $10,000,000 of silver in a year. The ledge was discovered in 1859.

TO ACCOMMODATE those who are partial to the use of atomizers in applying liquids into the nasal passages for *catarrhal troubles*, the proprietors prepare Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid embodies the medicinal properties of the solid preparation. Cream Balm is quickly absorbed by the membrane and does not dry up the secretions but changes them to a natural and healthy character. Ely Brothers 56 Warren street, New York.

Boys Bombard with Snowballs.

Berlin's schoolboys have been stirred to unusual lawlessness by this winter's snow. After Prince Henry's reception hundreds of boys in the Lustgarten began by snow balling omnibuses and carriages, and then attacked people walking on foot. They bombarded the doors of the museum, which had to be bolted, and drove off the mounted and the park policemen. The reserve had to be called out to disperse the boys.

Try Grain-o! Try Grain-o!

Ask your Grocer today to show you a package of GRAIN-O, the new food drink that takes the place of coffee. The children may drink it without injury as well as the adult. All who try it, like it. GRAIN-O has that rich seal brown of Mocha or Java, but it is made from pure grains, and the most delicate stomach receives it without distress. ¼ the price of coffee. 15c. and 25c. per package. Sold by all grocers.

Some Fur Overcoats.

Our gilded youth think nothing of paying from $100 to $1,000 for an overcoat. The idea is to combine lightness with warmth, and this is accomplished by the use of furs. The Chinese minister, Mr. Wu, has a superb coat that is lined with the pelt of a fiery fox, a little animal that has provided furs for the nobility of China these 3,000 years. A member of the Calumet club has a coat lined with the furs of the silver fox of the Arctics, each pelt costing $500. I don't know how many pelts there are in the coat, but as the animal is small, possibly 20 were used in the making.—New York Cor. Chicago Inter Ocean.

Walker's Tonic is the link that picks up the vital force of man in his run-down state and binds him to health and strength by recuperating the Brain, regulating the action of the Heart and nourishing the Nervous System. T. N. Cunningham, 136 north Main street.

The Transvaal Amazons.

It is considered not at all unlikely that the moment the British troops invade the Boer territory the women will take up arms against them. And they would be no mean foe to contend with. The average Boer woman is thoroughly trained to the use of the rifle, and her enmity towards Britishers is very bitter. In fact, it is stated that President Kruger has had great difficulty in restraining these Amazons, and that he has promised to allow them to take the field as a last resource.

Walker's Tonic contributes to mental cheerfulness and enables the muscular system to withstand fatigue. Walker's Tonic antagonizes Heart Failure. It is a nerve tonic allaying pain due to nervous tension. It stimulates the digestive organs and increases the appetite. T. N. Cunningham, 136 north Main street.

Two Million Golf Balls Used.

It is said that there are over 2,000,000 golf balls used each year in the United States, American players being particularly prodigal in their use. The majority of the golf balls come from England. They are difficult to manufacture, slight differences in the composition interfering with their usefulness.—Pittsburg Dispatch.

Spreads Like Wildfire.

When things are "the best" they become "the best selling." Abraham Hare, a leading druggist, of Belleville, O., writes: "Electric Bitters are the best selling bitters I have handled in 20 years. You know why? Most diseases begin in disorders of stomach, liver, kidneys, bowels, blood and nerves. Electric Bitters tones up the stomach, regulates liver, kidneys and bowels, purifies the blood, strengthens the nerves, hence cures multitudes of maladies. It builds up the entire system. Puts new life and vigor into any weak, sickly, run-down man or woman. Price 50 cents. Sold by H. F. Vortkamp, corner Main and North streets, druggist.

Life Insurance War Risks.

English insurance societies are badly divided over the question of war risks. Some refuse to have the volunteers at any price, while others think the men as safe in south Africa as at home catching influenza.

CAPE NOME OPEN TO ALL

Exclusive Privileges Not to Be Granted by the Government.

SPECIAL LAWS WILL BE NEEDED.

Commissioner Hermann Predicts a Great Rush When a Route to Siberia Is Found From the Yukon's Mouth. Information Given About Affairs In Alaska.

So many inquiries have been made concerning Alaska that S. A. Clarke, librarian of the general land office, has prepared a statement from the government records in which he has endeavored to embody all the information asked for, says the Washington correspondent of the Chicago Times-Herald. He says that since the discovery of gold on the beach at Cape Nome the general land office has received continual applications from pretended discoverers, inventors and schemers in general for exclusive rights and privileges connected with beach mining and deep sea dredging. Offers have been made to construct a railway along the beach as far as it can be mined if granted an exclusive privilege.

Commissioner Hermann of the land bureau has had many such propositions, but has declined to entertain them. As for rights to mine the beach sands, all have been declined on the ground that there is no authority in existing law to dispose of beach diggings. The question is not entirely new to him, as there are extensive beach grounds on the southern Oregon coast, where gold is found richly mixed with tide sands near his own home. But southern Oregon beach mines are strongly mixed with black sand, or iron sand, and no practicable method has been invented for separating the iron sand from the fine gold, as the beach sand is fine as flour, but the Cape Nome beach has no black sand, and the gold is easily separated.

As the government holds all lands between high and low water in trust for future states congress will legislate to grant temporary privileges pending statehood and regulations miners' meetings may establish in the meantime. As for mining by dredging the sands under the high seas within the three mile limit there is disagreement in congress, as it is a serious question if it is within the power of the government to convey rights that can conflict with navigation and fisheries.

The commissioner of the general land office has declined to consider applications for beach or deep sea mining, but the secretary of war has granted such privileges. Many have been granted within the last few weeks on the claim that the war department has a right to make these grants, but they will not be exclusive. As under the law any miner would be a trespasser the department gives its sanction to legalize their work. The interior department and general land office recognize the validity of miners' meetings and regulations passed there, as confirmed by experience for half a century in mining districts of our country.

Complaints have been made that mining claims have often been located by attorney, which has been greatly abused. For instance, a Boston man may have filed by attorney on valuable locations and held for a long time. There have been instances where entire gulches have been thus appropriated with no ownership visible or present. Commissioner Hermann decides against this as illegal, and congress is recommended to legislate that personal presence is necessary to establish title. Mr. Hermann has been consulted by Judge Tracey of the house public lands committee as to the advisability of legalizing miners' meetings for regulating claims to mine on Cape Nome beach or elsewhere, which he strongly recommends.

There have been three land offices in Alaska lately, but two were found to be practically useless, as there was no important business and expenses were enormous. Peavy, which was discontinued, was on the Koyukuk, 250 miles south of the arctic circle. Circle, also discontinued, is near the international line. Rampard, which was retained, is on the Yukon and will assume the business expected to have been transacted at Circle and Peavy.

The new office is located at St. Michael's, though great effort was made to secure it at Cape Nome. The commissioner recognized that when the Nome sands should be worked out there might not be any business of importance pertaining to Cape Nome, while St. Michael's will always be a commercial port where vessels must discharge cargo and trade exist.

Commissioner Hermann predicts that the mining excitement will grow when prospectors shall find their way to the coasts of Siberia, across the Bering sea, northwest from the mouth of the Yukon. His information is that gold shipments from Cape Nome to the mints have aggregated $2,600,000 within the year since the beach diggings were discovered and that amounts carried away by miners and individuals should increase the total to $4,000,000.

The land laws of the United States are not yet fully extended to Alaska, but congress will soon act on the question of its needs. The mineral land law is in operation there, and homesteads can be located to the extent of 80 acres. Provision has been made for trading needs, manufactures, town sites and right of way for certain purposes.

With the Procession.

It is said that the horses in the British artillery service in South Africa are being exchanged for imported American mules, which shows that, anyway, the horse trade follows the flag.—Denver Republican.

Pain in the Stomach

Loss of appetite, nervousness, headache, sleepless nights, an irritable temper and a wasting of flesh mark the dyspeptic. His stomach needs nerve force to make it work, just as a steam engine needs steam. When a man finds that he is using up his vital powers faster than nature can replenish them it is time for him to call a halt. Soothe and quiet the irritated nerves, strengthen and invigorate the stomach, give the tired brain rest and sleep, and he will get well. The quickest way, the easiest way and the best way to do this is to ask your druggist for a bottle of

DOCTOR
MILES' Nervine

and give it a trial. Get a bottle now, before your system is entirely broken down and disease gets a firm foothold.

"I suffered from chronic stomach trouble and nervous prostration for nearly two years. I could not sleep, had no appetite, was nervous and irritable and was unable to attend to my business. I had been taking Dr. Miles' Nervine and Nerve and Liver Pills but a few days when my appetite returned and I could sleep at night. I was soon restored to good health which I have enjoyed ever since."

The Skunk's Handsome Fur.

Although thousands of skunks are yearly killed and their hides sold to furriers, it is impossible to buy a skunk skin in a fur store. By some occult means the pelt changes its name between the time it is ripped off the back of the animal, and the time that it takes its place in the show window. Sometimes it changes its color as well, though the skin is the loser thereby, for there are few bits of fur handsomer than that grown on the outlawed skunk. Pariah though he is, this unsavory animal, against whose life the hand of man is ever raised, has been able much better than any of his brethren of good repute to hold his place in the world.

A Remarkable Fish.

People marvel at the mechanism of the human body, with its 208 bones and 60 arteries. But man is simple in this respect compared with the carp. That remarkable fish moves no fewer than 4,386 bones and muscles every time it breathes. It has 4,320 veins, to say nothing of its 99 muscles.

SUFFERING AND RELIEF

Three Letters from Mrs. Johnson, Showing that Lydia E. Pinkham's Vegetable Compound Cures the Ills of Women

Wrote for Mrs. Pinkham's Advice November, 1897

"DEAR MRS. PINKHAM:—I am a great sufferer, have much trouble through the lower part of my bowels, and I am writing to you for advice. Menses are irregular and scanty, am troubled with leucorrhœa, and I ache so through my back and down through my loins. I have spells of bloating very badly, sometimes will be very large and other times very much reduced."—MRS. CHAS E. JOHNSON, Box 33, Rumford Center, Maine, Nov. 20, 1897.

Improvement Reported December, 1897

"DEAR MRS. PINKHAM:—I wish to tell you that I am improving in health. I am ever so much better than when I wrote before. The trouble through the lower part of bowels is better and I am not bloated so badly. I was very much swollen through the abdomen before I took Lydia E. Pinkham's Vegetable Compound. I still have a feeling of fulness across my chest. I have used three bottles of it and am on the fourth."—MRS. CHAS. E. JOHNSON, Box 33, Rumford Center, Maine, Dec. 13, 1897.

Enjoying Good Health June, 1899

"DEAR MRS. PINKHAM:—Since a year ago I have been taking your medicine, and am now strong and enjoying good health. I have not been so well for three years, and feel very thankful to you for what Lydia E. Pinkham's Vegetable Compound has done for me. I would advise all who suffer with female troubles to try your medicine."—MRS. CHAS. E. JOHNSON, Box 33, Rumford Center, Maine, June 1, 1899

ATTACKED MEN BATHING.

A Filipino's Attempt to Kill Five Soldiers In the Water.

Several days ago at Dagupan Lieutenant Pierce of the Thirteenth infantry shot and mortally wounded a Filipino who was evidently insane, writes the Chicago Inter Ocean's Manila correspondent under date of Feb. 27. The circumstances leading up to the shooting are of a very sensational nature. Five soldiers from the Thirteenth infantry were bathing in the river that connects Dagupan with the Lingayen gulf. Near the middle of the stream and within the city limits lies an overturned steam launch partially submerged, from which it is customary for the bathers to dive. On this particular day the five soldiers were all standing or reclining on the launch's bottom, when suddenly a native, brandishing a long bolo above his head, rushed down to the river bank, sprang head foremost into the water, to reappear again about ten feet from shore, swimming toward the bathers with the bolo between his teeth. Immediately there was great consternation among the bathers, who were quite unprepared to meet an attack of any nature. The native was a strong and fast swimmer and was within ten yards of the wreck before they realized the seriousness of their position. Five naked men as a usual thing do not care to precipitate a fight with a desperate fellow armed with a keen edged bolo; therefore they sprang into the water and began swimming toward the shore just as the native clambered up the slippery clinker built bottom of the launch and stood there like a gladiator in a Roman arena bidding defiance to all comers.

These circumstances were reported to Lieutenants Patten and Pierce, who armed themselves with revolvers and, improvising a raft, proceeded toward the defiant native. They ordered him to throw away his bolo, but instead of complying with the command he sent a big stone flying in their direction that fell in the water a few feet from them. Again the officers commanded him to throw away the bolo, but he only answered with a defiant shout and a challenge to any one of the onlookers to come out and fight him, whereupon Lieutenant Pierce raised his revolver and fired at his arm. However, the bullet passed through his groin.

He paused, fairly shrieked with rage, swung his bolo above his head once or twice and then fell forward on his face. As soon as the raft came alongside the wreck Lieutenant Patten jumped to the side of the wounded native to find him still alive and defiant. However, he was so weakened by loss of blood that he could not offer any resistance. Lieutenant Patten took charge of the bolo, which is a very good weapon of its kind, and the prisoner was removed to the hospital, where he died the next day of his wound.

AUTOMOBILES ON RANCHES.

Cowboys' Bronchos May Be Displaced by Them on Western Plains.

The cowboy of olden times will soon become a thing of the past. The automobile boy will take his place on the plains instead, says the Wichita (Kan.) correspondent of the Chicago Record.

Ranch owners of Texas and the Indian Territory have adopted the scheme of John G. Kennedy of the La Parra ranch in Nueces county, Tex., who has placed 50 automobiles on his 20,000 acre ranch to be used in chasing cattle, instead of ponies. There are more reasons than style for this change. Economy is the first.

Mr. Kennedy said: "The ranchmen will use automobiles instead of bronchos because they are cheaper and better. The plains are smooth and grassy, and there are no ditches to speak of. A cow pony well trained is worth $75, while they only last a year. An automobile should last ten years or more and be useful winter and summer. I have secured my machines for $600 each.

"The ponies often fail to catch a wild steer when it breaks away from the herd, while an automobile would never fail. Every year I lose at least 100 cattle by their running away from the herd during a stampede. The cowboys do not take favorably to the scheme, because they will have to abandon their spurs and high heel boots. But I think the bringing of autos on to cattle ranches will have a tendency to elevate the cowboys. It will do away with the old familiar custom of riding the ponies into barrooms for their drinks."

At the annual meeting of the Indian Territory cattle men at Claremore, I. T., a resolution favoring automobiles instead of ponies for use on ranches was adopted.

DEWEY BALL PLANS.

An Elaborate Affair Being Prepared at the Chicago Auditorium.

Details of the decorations of the Auditorium in Chicago, in which the ball will be given the night of April 30 in honor of Admiral Dewey, were decided on the other day. The affair will be one of the most unique and elaborate of its kind ever given in the west. The scheme has been adopted of covering the entire Auditorium with draperies of white, blue and gold, entirely concealing the outlines of the big theater, and these colors will be relieved by the brilliant hues of Turkish rugs swung from the second tier of boxes.

It is proposed to enlist the services of the regular naval crews stationed at Chicago at that time to man the ships represented in a series of prows stationed every few feet along the ballroom floor, a man in regulation uniform standing at the point of each. From each prow will rise a Venetian mast, from which festoons of electric lights will swing, and above all will extend the draperies forming the enormous canopy. Five thousand invitations will be issued for the ball.

OTHER

Victims of Grand Jury.

Later Report Discloses Several Other Indictments.

Mr. and Mrs. J. J. Korns Were Indicted for Picking Wm. Gibbs' Pockets at Hill's Saloon.

John Cree and Henry Huffman, the two men arrested by constable Cremean while trying to dispose of a lot of cable and rope stolen from Jerry Abbott near Lafayette, were among those indicted by the grand jury yesterday. The suspects were having their preliminary hearing before justice Duffield, but the evidence against the men was so conclusive that Prosecutor Klinger determined to dispose of the matter with the grand jury, and and save the county the expense of boarding the two prisoners until the fall term of court.

A capias was issued and deputy sheriff Bogart went justice Duffield's office where the men were transferred to him and taken to the county jail to await their trial. During the preliminary hearing, Mr. Abbott stated that the cable was worth about $700 when it was stolen, but it was now worthless as the thieves had cut it up to destroy identification. The two men are tough looking characters and the officers have them dead to rights.

The team of horses held as security for the board bill claimed to be due Mrs. S. A. Carey, from John Baker, the case coming up in Justice Atmur's court were offered for sale this afternoon.

TWO OTHER INDICTMENTS.

Several persons indicted by the grand jury escaped publication yesterday, for the reason that Prosecutor Klinger wished to be certain of their arrest before giving out the names. Among the number is Jacob Busick who is held to answer for receiving stolen goods and buying junk from boys.

Mr. and Mrs. J. Corns are indicted for the job of pocket-picking at Hill's saloon. The victim, Wm. Gibbs, went to sleep in the wine room and was robbed of $8.60, and it is alleged that Corns and his wife turned the trick.

HEART TROUBLE

Caused the Sudden Death of Jacob Siferd.

Died in His Buggy While Driving Along a Road Three Miles East of Cridersville.

Noah Siferd, an employe of the City Transfer Co., received a message about 9 o'clock last evening announcing the sudden death of his aged father, Jacob Siferd, a farmer well known in this city.

The deceased lived on a farm two and one-half miles south of Cridersville and had driven in a buggy to the home of John Sellers, three miles east of Cridersville, and was on his return trip when he fell dead in the buggy. His remains were taken to Cridersville and the Auglaize county coroner was summoned from Wapakoneta.

PNEUMONIA

Causes Another Death by Its Dreaded Ravages.

Mrs. Margaret Miller, of Amanda Township, Succumbs After an Illness of Short Duration.

Mrs. Margaret Miller, widow of Isaac Miller, died at her home in Amanda township, four miles southwest of Allentown, at 6 o'clock last evening, death resulting from pneumonia, after a brief illness.

The deceased was aged 88 years, 7 months and 23 days, and is survived by one daughter, Jane Miller. Her husband died eight or ten years ago.

Funeral services will be held from the Allentown M. E. church at 10 o'clock tomorrow morning. Interment will be made in the Allentown cemetery.

BURGLARY

Perpetrated Last Night,

At J. D. Austin's Grocery, on the South Side.

Policeman Armstrong Captures a Man Whoo is Thought to be One of the Toledo Murderers.

Some time during last night, J. D. Austin's grocery, located on south Main street, near Eureka street, was burglarized and $1.50 in change, a quantity of cigars, tobacco and chewing gum were among the articles stolen. The robbers gained an entrance through the rear door which was forced open. The police were notified, but have not yet apprehended the thieves.

Joe Nipper, a character who is well known by most of the police in northwestern Ohio, was arrested on suspicion at 3 o'clock this morning, by officers O'Brien and Caddy. He is still a prisoner.

O. S. Maher, arrested a day or two ago for vagrancy, is still locked up at the police station.

Howard Smith, a young south sider, was arrested by policeman Brennen at the St. Johns avenue and C. & E. crossing this morning for jumping on trains.

ARRESTED ON SUSPICION.

At 9 o'clock this morning patrolman Armstrong arrested a stranger in the C. H. & D. yards and locked him up on suspicion. The fellow gave his name as Adolph Brower, but the police have no means of knowing whether or not that is the name which rightfully belongs to him. He tallies reasonably well with the description given of one of two men who entered the home of two aged women near Toledo a few days ago and clubbed the two helpless inmates into insensibility and then stole $1,200. One of the women died within a few hours and the other cannot recover. In the struggle one of the men had his face badly scratched and the prisoner here is suffering from similar wounds which he claims to have received yesterday, but which appear to have been inflicted fully four or five days ago. The Toledo authorities were notified of the capture.

GODOWSKY

The Eminent Russian Plays for Our Students Monday.

The purchase of a seat at Melville's, for the piano recital Monday night, means an evening of the most brilliant music, and an opportunity of hearing one of the acknowledged great musical artists of the time. It means more. It means that our people appreciate music as one of the elements of culture, and desire that the young men and women, while their standards of taste and education are being formed, shall have the free opportunity to see and hear some of the remarkable genius, which exists in the world, and which excites so much interest elsewhere. Personal interest and public spirit should join to see that the sale of seats equals the fund required to bring to our door one of the extraordinary men of our generation.

A. Simoyan will be in Lima next week with his usual superb line of oriental rugs.

STEEL RANGES

KNOWN
and
UNKNOWN.

There is one point that a customer always wants to be satisfied of in buying an article and that is that he is getting full value for his money expended. There is no one thing that the people of Allen county have been swindled on more than *Steel Ranges.* A few years ago a St. Louis concern came through this county selling *the only Steel Range on earth.* The farmers were called upon by expert demonstrators and high salaried salesman whose business it was to sell these Ranges, and they did so. They sold the farmers of this county Ranges at $68.00 each that any reliable, honest dealer would have been ashamed to ask a customer more than $35.00 for. These same Ranges are many of them moved out of the houses and stored away in the barns and discarded because they warped and cracked and were *made to sell, not to last.* It's poor policy to go chasing rainbows when you can get something that has a reputation and is

ABSOLUTELY KNOWN

to be allright and the experience of your friends and neighbors goes toward proving to you that it is perfect.

WE HAVE BEEN SELLING STEEL RANGES FOR MORE THAN 20 YEARS right here in Lima, and have hundreds of customers using

THE CELEBRATED
GARLAND AND BORN
STEEL RANGES.

THE GARLAND RANGE is the finest piece of stove construction that money and brains can produce. There is nothing that is known in high class stove building that is not embodied in this line, and the prices are no higher than should be for the class of goods they are.

You can have a nice 6 hole Range with high closet and reservoir for

$39.50.

The same without the reservoir for

$32.50.

THE BORN STEEL RANGE is the *Best Range for the price in America.* No stove man can deny this.

They leave off the frills and fancy work and *make a Range for durability* and service that will come within the reach of the masses and that can be fully guaranteed.

There are over 500 of these in use in Lima, and not a single dissatisfied customer. Note our prices. You can buy a nice

4 Hole Range with high shelf..$20.00
4 Hole Range with high closet.. 23.50
4 Hole Range with reservoir and high closet..... 29.50
6 Hole Range with reservoir and high closet..... 33.50
6 Hole Range with high closet.. 28.50

These goods are all in stock ready for immediate delivery, and to reliable parties we will place *any Range* we *sell* in your house with the understanding that it MUST BE ABSOLUTELY SATISFACTORY BEFORE PAYMENT. NO EXPERT COOKS NEEDED, any body can do satisfactory work on *a Garland* or *Born Steel Range.* The Ranges are ready for your inspection now.

Ewing, of Chicago, on "Christian Science the Religion of Jesus Christ," delivered Friday evening, November 3, was one of the ablest, clearest, and most brilliant expositions of the Christian Science faith that has been heard in this city. In spite of weather that was extremely disagreeable the attendance was large, including not only members of the local organization, but of other churches as well, and the arguments of the eloquent lecturer were listened to with closest attention throughout.—Herald, Grand Rapids, Mich. OTHER

Victims of Grand Jury.

Later Report Discloses Several Other Indictments.

Mr. and Mrs. J. J. Korns Were Indicted for Picking Wm. Gibbs' Pockets at Hill's Saloon.

John Cree and Henry Huffman, the two men arrested by constable Cremean while trying to dispose of a lot of cable and rope stolen from Jerry Abbott near Lafayette, were among those indicted by the grand jury yesterday. The suspects were having their preliminary hearing before justice Duffield, but the evidence against the men was so conclusive that Prosecutor Klinger determined to dispose of the matter with the grand jury, and and save the county the expense of boarding the two prisoners until the fall term of court.

A capias was issued and deputy sheriff Bogart went justice Duffield's office where the men were transferred to him and taken to the county jail to await their trial. During the preliminary hearing, Mr. Abbott stated that the cable was worth about $700 when it was stolen, but it was now worthless as the thieves had cut it up to destroy identification. The two men are tough looking characters and the officers have them dead to rights.

The team of horses held as security for the board bill claimed to be due Mrs. S. A. Carey, from John Baker, the case coming up in Justice Atmur's court were offered for sale this afternoon.

TWO OTHER INDICTMENTS.

Several persons indicted by the grand jury escaped publication yesterday, for the reason that Prosecutor Klinger wished to be certain of their arrest before giving out the names. Among the number is Jacob Busick who is held to answer for receiving stolen goods and buying junk from boys.

Mr. and Mrs. J. Corns are indicted for the job of pocket-picking at Hill's saloon. The victim, Wm. Gibbs, went to sleep in the wine room and was robbed of $8.60, and it is alleged that Corns and his wife turned the trick.

HEART TROUBLE

Caused the Sudden Death of Jacob Siferd.

Died in His Buggy While Driving Along a Road Three Miles East of Cridersville.

Noah Siferd, an employe of the City Transfer Co., received a message about 9 o'clock last evening announcing the sudden death of his aged father, Jacob Siferd, a farmer well known in this city.

The deceased lived on a farm two and one-half miles south of Cridersville and had driven in a buggy to the home of John Sellers, three miles east of Cridersville, and was on his return trip when he fell dead in the buggy. His remains were taken to Cridersville and the Auglaize county coroner was summoned from Wapakoneta.

PNEUMONIA

Causes Another Death by Its Dreaded Ravages.

Mrs. Margaret Miller, of Amanda Township, Succumbs After an Illness of Short Duration.

Mrs. Margaret Miller, widow of Isaac Miller, died at her home in Amanda township four miles southwest of Allentown, at 6 o'clock last evening, death resulting from pneumonia, after a brief illness.

The deceased was aged 88 years, 7 months and 23 days, and is survived by one daughter, Jane Miller. Her husband died eight or ten years ago.

Funeral services will be held from the Allentown M. E. church at 10 o'clock tomorrow morning. Interment will be made in the Allentown cemetery.

PROPERTY

Bought by the Highest Bidder at Sheriff's Sale Today.

Deputy sheriff Summers sold two pieces of property today under orders from the courts having jurisdiction. A desirable purchase was made by James O'Conner, who paid $5,335 for the north Main street block where his furniture store is now located. The property was ordered sold in the case of Johanna McFarland, executor of John T. Callaghan.

Inlot 1386 in Standiford's addition was sold to G. W. Turner for $200. The sale was the outcome of a suit to collect taxes, brought by Treasurer Lutz against Mary Rost, et al.

BURGLARY

Perpetrated Last Night,

At J. D. Austin's Grocery, on the South Side.

Policeman Armstrong Captures a Man Whoo is Thought to be One of the Toledo Murderers.

Some time during last night, J. D. Austin's grocery, located on south Main street, near Eureka street, was burglarized and $1.50 in change, a quantity of cigars, tobacco and chewing gum were among the articles stolen. The robbers gained an entrance through the rear door which was forced open. The police were notified, but have not yet apprehended the thieves.

Joe Nipper, a character who is well known by most of the police in northwestern Ohio, was arrested on suspicion at 3 o'clock this morning, by officers O'Brien and Caddy. He is still a prisoner.

O. S. Maher, arrested a day or two ago for vagrancy, is still locked up at the police station.

Howard Smith, a young south sider, was arrested by policeman Dennen at the St. Johns avenue and C. & E. crossing this morning for jumping on trains.

ARRESTED ON SUSPICION.

At 9 o'clock this morning patrolman Armstrong arrested a stranger in the C. H. & D. yards and locked him up on suspicion. The fellow gave his name as Adolph Brower, but the police have no means of knowing whether or not that is the name which rightfully belongs to him. He tallies reasonably well with the description given of one of two men who entered the home of two aged women near Toledo a few days ago and clubbed the two helpless inmates into insensibility and then stole $1,209. One of the women died within a few hours and the other cannot recover. In the struggle one of the men had his face badly scratched and the prisoner here is suffering from similar wounds which he claims to have received yesterday, but which appear to have been inflicted fully four or five days ago. The Toledo authorities were notified of the capture.

GODOWSKY

The Eminent Russian Plays for Our Students Monday.

The purchase of a seat at Melville's, for the piano recital Monday night, means an evening of the most brilliant music, and an opportunity of hearing one of the acknowledged great musical artists of the time. It means more. It means that our people appreciate music as one of the elements of culture, and desire that the young men and women, while their standards of taste and education are being formed, shall have the free opportunity to see and hear some of the remarkable genius, which exists in the world, and which excites so much interest elsewhere. Personal interest and public spirit should join to see that the sale of seats equals the fund required to bring to our door one of the extraordinary men of our generation.

A. Simoyan will be in Lima next week with his usual superb line of oriental rugs.

STEEL RANGES

KNOWN and UNKNOWN.

There is one point that a customer always wants to be satisfied of in buying an article and that is that he is getting full value for his money expended. There is no one thing that the people of Allen county have been swindled on more than *Steel Ranges*. A few years ago a St. Louis concern came through this county selling *the only Steel Range on earth*. The farmers were called upon by expert demonstrators and high salaried salesman whose business it was to sell these Ranges, and they did so. They sold the farmers of this county Ranges at $68.00 each that any reliable, honest dealer would have been ashamed to ask a customer more than $35.00 for. These same Ranges are many of them moved out of the houses and stored away in the barns and discarded because they warped and cracked and were *made to sell, not to last*. It's poor policy to go chasing rainbows when you can get something that has a reputation and is

ABSOLUTELY KNOWN

to be allright and the experience of your friends and neighbors goes toward proving to you that it is perfect.

WE HAVE BEEN SELLING STEEL RANGES FOR MORE THAN 20 YEARS right here in Lima, and have hundreds of customers using

THE CELEBRATED
GARLAND AND BORN
STEEL RANGES.

THE GARLAND RANGE is the finest piece of stove construction that money and brains can produce. There is nothing that is known in high class stove building that is not embodied in this line, and the prices are no higher than should be for the class of goods they are.

You can have a nice 5 hole Range with high closet and reservoir for

$39.50.

The same without the reservoir for

$32.50.

THE BORN STEEL RANGE

is the *Best Range for the price in America*. No stove man can deny this.

They leave off the frills and fancy work and *make a Range for durability* and service that will come within the reach of the masses and that can be fully guaranteed.

There are over 500 of these in use in Lima, and not a single dissatisfied customer. Note our prices. You can buy a nice

4 Hole Range with *high* shelf..$20.00
4 Hole Range with high closet.. 23.50
4 Hole Range with reservoir and high closet..... 29.50
6 Hole Range with reservoir and high closet..... 33 50
6 Hole Range with high closet.. 28 50

These goods are all in stock ready for immediate delivery, and to reliable parties we will place *any Range we sell* in your house with the understanding that it MUST BE ABSOLUTELY SATISFACTORY BEFORE PAYMENT. NO EXPERT COOKS NEEDED, any body can do satisfactory work on *a Garland* or *Born Steel Range*. The Ranges are ready for your inspection now.
